EXECUTIVE SUMMARY

Enterprise AI & Data leader specializing in building and scaling Gen AI and Agentic AI solutions with robust AI Governance and LLMOps. Delivering trusted AI for highly regulated Financial Services and Consulting. Currently at KPMG US – leading Go-To-Market(GTM) and heading Applied AI & Data — 20+ global team, \$12M+ P&L in Banking & Capital Markets, driving AI-First transformation. Expertise in AI strategy, Operating model, Center of Excellence (CoE) setup, Business case and ROI, P&L Ownership, C-Suite Advisory, and Client Leadership. Hands-on in Agentic AI, GenAI, RAG, MCP, LLMOps on Azure AI Foundry, AI Search, and Fabric. Governance: NIST AI RMF, EU AI Act. Unique blend of AI transformation leadership and hands-on platform delivery. Shipped 3 AI revenue platforms: 40%+ adoption lift, \$200M opportunity, 35% risk accuracy improvement, \$3M+ revenue.

CORE COMPETENCIES

- **AI Transformation & Strategy:** AI-First Strategy (operating model, organizational and cultural changes), Roadmap, CoE, Business Case & ROI, Value Realization, Build vs Buy, P&L, C-Suite Advisory, Stakeholder/Vendor Management, AI Adoption, Modernization.
 - **FS Domain:** Financial Services, Banking, Capital Markets, RCM, Risk, Compliance, Contract/Invoice Intelligence
 - **Go-To-Market (GTM):** Offerings commercialization, Business Development, Value Realization, Build vs Buy, Stakeholder and Vendor management, AI Adoption, Modernization
 - **Applied AI & Engineering:** GenAI, Agentic AI, Multi-Agent Systems, LLM, RAG, Evals, MCP, Context/Prompt Engineering, Embeddings, AI Search, FDE, Python, PyTorch, LangChain/LangGraph/LangSmith, Semantic Kernel
 - **Governance:** Responsible AI, NIST RMF, EU AI Act, Model Validation/Governance, Guardrails, PII, Prompt Injection, Jailbreak, Data Privacy/Lineage, Purview, Credo.ai, NeMo Guardrails.
 - **Platform:** LLMOps/MLOps, Azure AI Foundry, Fabric, DevOps CI/CD, GitHub, Docker, ACR/AKS, Cosmos DB/Gremlin, PostgreSQL/PGVector, Hadoop, Exadata, Claude Code, Github Copilot
-

PROFESSIONAL EXPERIENCE

Sr. Director, Head of AI Transformation & Applied AI Platform

KPMG US – NYC (Hybrid) | Sep 2022 - Present

- **Lead AI portfolio:** 20+ global team, \$12M+ P&L. Own transformation + platform delivery for Banking & Capital Markets. Lead GTM – Offerings & Solution Commercialization, and Business Development.
- **Enterprise Strategy & Adoption:** Architected and executed AI-First strategy aligned to business priorities and multi-year roadmap for Advisory & clients, lifting adoption 40%+ across 500+ practitioners. Established AI operating model, governance, CoE, value prioritization. Advised Tier 1 banks' CTO/CIO on AI investment and build-vs-buy to deliver 10-20% ROI & 20-25% cost efficiency.
- **P&L & Value Realization:** Own \$12M+ client revenue portfolio in Banking & Capital Markets. Prioritized high-impact use cases. Partnered across Product, Security, Risk, Compliance, Data, Operations. Reduced LLM token cost 12-18% via open-source vs commercial guidelines (ChatGPT, Claude, Gemini, Llama).
- **Platform and LLMOps Leadership:** Founded/scaled Advisory AI Center of Excellence (CoE): reference architecture for Agentic AI, reusable multi-agent patterns, RAG eval framework [relevancy >0.85]. Established LLMOps on Azure [DevOps CI/CD, GitHub, Docker, ACR, AKS]. Mange Advisory Forward Deployed Engineers (FDEs).
- **Responsible AI and Model Risk:** Institutionalized governance aligned to NIST RMF, EU AI Act using Credo.ai, and NeMo Guardrails [PII, prompt injection, jailbreak]; cut governance cost 15-20%; Ensured Model Risk validation.
- **AI Delivery & Innovation:** Own end-to-end AI pipeline delivery – projects and products. Rapid prototype and POC. Connecting tissue between business and technology teams. Strong documentation. Balance Innovation with business delivery.
- **Business Engineering & Dev Tools:** Translated ambiguous business requirements into actionable work items. Implemented agentic coding using Claude Code, increasing productivity by 82%.

Signature Agentic AI & GenAI Deliveries:

- **Contract IQ – Agentic AI Product:** \$5M Initiative, \$200M Revenue Opportunity Unlocked: Led 0 → 1 multi-agent platform replacing legacy vendor and fragmented systems. Automated contract/invoice ingestion, leakage detection, fund recovery. POC in 3 days, Time to Value (TTV) improved 60%+.
- **Financial Risk Analytics – MCP-based Agentic System:** 35% Risk Accuracy Lift, \$500K Savings: Delivered multi-agent system over bank data lake (credit risk/IR risk/country risk/liquidity risk) – 35% accuracy, 55% ops efficiency, \$500K savings in 6 months with governance & evals for regulatory approval.
- **RAG Content Harvesting Platform - Product:** \$3M+ Revenue, 100% Efficiency Lift: Data source from semi-structured and unstructured. Shipped RAG with Flash re-ranker; Eval defined for both Retriever and Generator components. Evolved from internal accelerator to commercial product.

SVP, Data Science – Practice & GTM Leader

BigR.io – Boston/NJ (Hybrid) | May 2021 – Jul 2022

- Led Data Science practice, GTM, pre-sales; established strategic partnership with DataRobot. Built high-performing DS team.
- Delivered predictive modeling for SaaS healthcare payor on Azure using XGBoost, F1 >0.85, creating \$1M/year new revenue stream; improved prediction stability 30%+ vs legacy model.

Data Scientist, Repo, Collateral & Margin (RCM) Trading

Credit Suisse [now UBS] – NYC, NY | Sep 2019 – May 2021

- Led AI/ML transformation for RCM trading desk – replaced legacy rule-based booking with Deep Learning platform; F1 >0.87, adopted by 20+ traders, \$800K/year savings, improved STP.
- Built/led 10-person Data Science & Data Engineering team; established MLOps on AWS for prod ML in trading; partnered with Front Office, Risk, Operations.

Director, AI/ML – Founding Director

UST – Aliso Viejo, CA/NJ | May 2018 – Sep 2019

- Founding Director for AI/ML practice. Built global team US & India. Managed DS horizontal generating \$25M revenue. Developed flagship AutoML product, \$40M revenue base. Built financial client predictive model using LSTM, F1 >0.90.

Vice President, Global Technology

JPMorgan Chase – NYC, NY | Jan 2014 – May 2018

- Initiated/scaled ML adoption within Global Technology – first ML initiatives in GT. Built Anomaly Detection using Deep Learning replacing rule-based engine; built Risk Pricing ML engine using Random Forest with hyperparameter optimization.
- Managed global Reference Data platform on Big Data [Hadoop] supporting enterprise risk & regulatory reporting; led Oracle Exadata tuning improving SQL performance 75%. Managed global delivery US & India.

Vice President, Risk Technology Barclays

NYC, NY | Jul 2009 – Jan 2014

- Hired/led 50-person global matrix team across US, UK, India, Singapore supporting Credit, Interest Rate, Liquidity Risk.
- Led ETL & DB backend engineering on Oracle Exadata for enterprise risk – core infra for regulatory & risk reporting; owned delivery for risk/regulatory initiatives ensuring data quality, lineage, compliance.

[My earlier career in Wall Street – Citi Alternative Investments, Deutsche Bank]

TECHNOLOGY & GOVERNANCE

- AI/ML: GenAI, Agentic AI, Multi-Agent Systems, MCP, RAG, LLM Evals, PyTorch, LangChain/LangGraph/LangSmith
- Cloud: Azure AI Foundry, AI Search, Cosmos DB, Fabric, Purview, PostgreSQL/PGVector, Neo4j, AWS, Hadoop
- DevOps: LLMops/MLOps, Azure DevOps, Docker, ACR/AKS, Kubernetes/OpenShift, Harness, Jenkins
- Agentic Dev Tools: Claude Code, GitHub Copilot, Devin, Codex
- AI Governance: NIST RMF, EU AI Act, Credo.ai, NeMo Guardrails
- LLMs: ChatGPT 4.0/5, Claude Family, Gemini, Llama Family, Embedding | Languages: Java, Spring Boot, Angular, TypeScript

EDUCATION

Master of Science, Computer Science [Minor: Statistics] – Rutgers University, New Brunswick, NJ
